1. PRESIDENT'S MESSAGE

Dear friends,

On behalf of the World Aquatics family, it is my great pleasure to welcome you all to the World Aquatics Open Water Swimming World Cup 2024

The 2024 season will see the world's best open water swimmers compete in the following locations: Soma Bay, Egypt (23-24 March), Golfo Aranci, Italy (25-26 May), Setubal, Portugal (12 October), Hong Kong, China (26-27 October), and the location of the last stop of the season still needs to be confirmed.

The crystal-clear water of Soma Bay, Egypt, host of the successful 2023 Open Water Swimming World Cup as part of the Egypt Aquatics Festival, will open the World Cup 2024 tour.

Many of you will now be familiar with the beautiful coastal town of Golfo Aranci, our second stop and second consecutive visit after the successful debut in Sardinia as part of the s Open Water Swimming World Cup 2023.

Following the warm Sardinian hospitality, athletes will move to familiar surroundings for the third stop in Setubal, Portugal. The Sado Estuary Nature Reserve has successfully welcomed multiple World Aquatics open water events, including the Olympic Marathon Swim Qualifier events in 2012, 2016, and 2021, the Marathon Swim World Series 2022, and the Open Water Swimming World Cup 2023.

From Setubal, the tour will head east for the 13th World Aquatics open water event in Hong Kong, an Asian city that seamlessly blends vibrant culture with stunning natural beauty. The final stop of the season still needs to be confirmed.

Thanks to the support of the Local Organising Committees, local authorities, officials, and volunteers, I know that you are in very safe hands in all of these great cities.

Thank you once again to the host cities and sponsors for your continued trust and support for what promises to be a truly special year for open water swimming. Finally, I wish all athletes the very best during this series of much-anticipated events.

Captain Husain Al-Musallam

World Aquatics President

2. MAYOR OF SETÚBAL MESSAGE

The city of Setúbal has been, since 2006, the stage of great emotions at each new stage of the World Aquatics Open Water Swimming World Cup, with the presence of the most important elite swimmers from all over the world.

The Sado River framed by the Arrábida Mountains was also the scene of the 2012, 2016 and 2021 Olympic Games Qualifications, which further reinforces that the investment and effort we have made to promote the municipality and its potential in the field of aquatic sports has been worthwhile.

In recent years we have gained the confidence of countries, athletes, and coaches. A recognition that we have also received from our peers in similar organizations, as result of a well-coordinated work that allowed us to win the confidence of the Portuguese Swimming Federation and the World Aquatics.

Besides the official teams, many are the persons involved that take advantage of the approximately one-week period that the athletes spend in Setúbal to visit our country, namely the Blue Coast region and the Lisbon Metropolitan Area, with visible economic returns for the tourism sector.

These values, countable but immeasurable, assure us that we are on the right track, on the path to promote, publicise and value our land, our sport, our people and our traditions.

To the athletes, managers, coaches, and other elements of the delegations from various countries who return to Setúbal, or visit us for the first time, welcome!

To the swimmers who inspire our young athletes and show them the path to which effort and dedication lead, I wish the best sporting success and that Setúbal and the river Sado continues to be a reference in your careers, remembered as one of the places where you achieve results of excellence.

André Martins

Mayor of Setúbal

3. PRESIDENT OF PORTUGUESE SWIMMING FEDERATION MESSAGE

The Portuguese Swimming Federation has the honour to organise, once more, in partnership with Setúbal Municipality, in the beautiful Albarquel beach, the Open Water World Cup, in the stage of three Olympic Qualifying Events, and as the aquatic's world recognizes it, one of the most challenging stages that really shows the true spirit of the discipline.

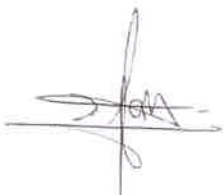

Since 2006 Portugal and the city of Setúbal receive the best world swimmers of the Olympic Marathon that face a 10km Open Water course in the ending of Sado river embraced by the Sado's and Serra da Arrábida's natural reserve, in an astonishing landscape and a rich local culture.

Knowing that the sport needs to reinvent itself as competition model and that World Aquatics (AQUA) is developing, together with the LOC's, new references that adjust the model in order to gather the swimmer's interests and the organisational costs, and that set the discipline as major interest to all great swimmers in medium and long distance as they do in the pool.

Also together with this competition, we will have the challenge of a promotional event that contribute for the development of a discipline that in Portugal gathers leisure, physical activity, competition and health, all together with beautiful sightseeing's and the Portuguese gastronomy.

A deep welcome to all wishing that the success of this organisation be also yours and the fulfilment of your goals.

Best of luck to you all!

António Silva

Portuguese Swimming Federation President
